HOUSE RULES – IMPORTANT PLEASE READ CAREFULLY

Objectives

- **In addition to the normal rules for objective scoring any unit of Infantry or Cavalry with a US10 or more in an OPEN, LANCE or CLOSE formation can also score (this means elite infantry/special/rare units can score)**
- **Units that deploy as scouts or make a vanguard move cannot score any objective points in both players turn 1 of the game, after that they can score as normal**

Baggage Train

- The baggage train doesn't block Line of sight and can be freely moved over – it is just a token/objective marker for all rules purposes. This is open ground and doesn't hinder or impede movement or LOS in any way.

Ethereal Units

- Any weapon can hurt them on a natural wound roll of a 6 regardless of whether they are magical or not.

Illusion Magic

Spectral Doppelganger

Change to

- *“The caster makes 2D6 attacks against a unit it is engaged in combat with, resolved using the characteristics and special rules of the caster and of any weapon they carry.”*
 - This means you must roll to hit with these attacks instead of auto hitting

Column of Crystal

- Although this is a remains in play spell the caster can only choose to end the spell at the start of turn subphase in the shooting phase or combat phase (in either turn) and not earlier in the game, it will also disappear if the caster is killed
 - *This is to stop people blocking the enemy and then removing it before they charge*

FAQ (subject to change)

Q: When do I declare my intent to scout a unit?

A: Before starting alternative deployment, players should roll off and the winner must declare which units will scout followed by other player then we will move onto alternative deployment method as laid out by the scenario.

Q: When do I declare a unit will ambush?

A: When alternatively deploying a unit being ambushed will take up one of your drops and should be decided as you “deploy” the unit even if it means putting to one side and saying “this X will ambush”

Q: If I am fighting unit that counts as (or is physically) behind a low linear obstacle is my unit in base contact? Do I get more than 1 attack a model?

A: Yes, attack as normally as if in base contact except you cannot stomp or do impact hits.

Q: If I charge a unit behind a defended low linear Obstacle, do I count as charging through difficult terrain for the charge roll?

A: No, you charge up to the obstacle so the wall doesn't slow you down.

Q: Can I raise zombies above starting strength before they have taken any casualties

A: Yes, you can.

Q: Can unstable units take a regeneration “save” from wounds caused by combat resolution?

A: No.

Q: Can a cannon aim at what they cannot see? Ie pick a point they can see but hoping the artillery dice makes it land behind the building to hit something behind with the bounce?

A: No, A cannon is not a stone thrower. A cannon cannot hit any unit which is not visible to the cannon unless the only obscuring factor is enemy models. This means effectively woods, hills and buildings stop cannon shots hitting units behind. Please note that if you are in the wood and visible. Then you can be seen and targeted as usual (this also does not override the character protection from cannons as per FAQ)

Q: How many shots do I get with gunpowder bombs if the Ogre Artillery crew joined to the war machine has the upgrade?

A: One per crew, the war machine doesn't get to stand and shoot! Ie a full compliment would have 4 shots.

Q: How many wounds does the war machine have in combat if joined by an ogre loader?

A: you need to do 6 wounds (3 for crew and 3 for ogre) in combat to kill the war machine, attacks are always worked out against the majority toughness (in this case the crew so 3) and wounds carry over.

Army List Submission

Each entrant is required to submit an army list before **October 10th** this should be in Old World Builder Format <https://old-world-builder.com/> and uploaded to BCP

The event will be Managed on BCP

<https://www.bestcoastpairings.com/event/2sfCJngKiSql> – We will be using this software for the event

Please ensure you have at least one hard copy of your list as you must be able to show each opponent your list before each game.

If you have any questions about the event or want to ask about rulings, please email Russ at Russ.Veal@gmail.com

If during the event your list is found to be illegal then at our discretion, we will zero your scores for any game it was used in before it is corrected – please note we will check them periodically during the event, but your list might only be checked on day 2 so it's your responsibility to ensure the list is legal..

Army Painting

- All models in your army must be fully painted miniatures of the appropriate type for the troops they represent
 - No bare plastic or metal showing through in an appropriate scheme.
 - Undercoat spray with no wash/highlight is not acceptable
 - All models with textured/painted bases.
- 3d Printed Models ARE allowed as long as they fulfill the above criteria and its clear what they represent (please ensure they are in Warhammer Theme and not a weird proxy army of some other IP – armies of rocks with googly eyes or minions or other random things won't be allowed) Please contact me if you have questions

- Models used for summoning will be considered for paint scoring so if you borrow models to summon which don't match your army then you won't score cohesive points
- All models based on appropriate Base sizes and movement trays should be used where possible to ensure accuracy when moving
- Your models must display all unit options, command models and upgrades where appropriate.
- We reserve the right to remove models which do not meet this minimum standard and adjust your painting score if your army does not meet these criteria

Terrain

Element Games will provide terrain for the event.
The Tables will be set up with Terrain by the event staff
Additionally, no terrain may be placed within 3" of an objective marker or the edge of the battlefield or another piece of terrain
If you want to reset the terrain please call over a judge or do so in a mutually agreeable manner

What you need to bring!

Players should bring the following – Element games shop will be open if anyone needs to pick up missing items.

- A Fully Painted army!
- At least two hard copies of your army list (we recommend 6, 1 for each of your opponents and 1 for registration)
- Dice and Tape Measure (Arcs of sight and lasers!)
- Wound markers and buff counters (optional but highly recommended!)
- A set of "the Rules" for your army and the core game
- Glue for any last minute repairs!

The Event!

Round Timings & Time Management

Each round will last 2 hours 45 minutes, which should be plenty of time for the game to be played out, We will need results before the end of the round to the front desk to keep the event on track. In the event players are still not finished at the end of a round then we will ask you to stop and work out victory conditions.

We recommend not starting a new set of turns if both players cannot complete their turns in the time remaining however, this needs to be reasonable and not used as a “tactic”

If a judge is informed & observes anyone intentionally time wasting or delaying or failing to start a new set of turns because they might lose but there is enough time remaining, we will intervene and may issue a TP penalty.

We reserve the right to issue a penalty to anyone who does not complete 2 games in the time limit.

Scenarios

All games are 6 turns in length

- **Game 1 – Upon the field of Glory**
 - Baggage Train
 - Strategic locations 3
- **Game 2 – Draw battlelines**

The Draw and Pre Setup

The round pairings will go up before each round in several places around the venue and on BCP. This will show your table number, opponent and the army you will be facing. The draw is random on the first game and then a “Swiss Chess” system is in place on the following games (this means you play people who are on similar scores).

Before starting your game, you should hand your opponent your list and allow about 5 minutes to look at them and discuss any rules or ask any questions.

Best Opponent award

Players will nominate the two players they had the most fun playing against during the event and the player with the most votes will win the Facehammer GT Herald award. In the event of a tie it will go to the player who had the most tournament points.

You might want to award it to the player who knew the rules, turned up on time, played fair and friendly instead of the most fun game, this is fine. We leave it to you but as a guide it's the player you would most like to play again!

Painting Awards

At the FHGT the best painted army (exemplar award) will go to the army the judges deem to be the best painted army, we will consider technical ability (whether conversions or painting) overall theme/composition and the cool factor.

We will also be giving out an award for coolest army, The FHGT Luminary! This is not down to just technical ability and allows us to award someone who has embraced the spirit of the hobby and created something spectacular!

As all the officials have won multiple Best Army/Painting awards we hope you feel confident in our decision to pick the most deserving winners.

We will shortlist the best armies and ask players to set them up for the other players to look at during Sunday lunch. All nominations will also receive a FHGT Finalist badge to show our appreciation of the top armies at our event.

Please note only armies painted by the attendee may win painting prizes, if you did not paint your army but are nominated please inform an official
